Philosopher

Calm Stoic teacher. Seneca at your shoulder.

Centurion

Firm coach. Short orders, no excuses.

Set the Vigil

A small counter that watches your reels so you don't have to. It needs Android's accessibility permission, so here is exactly what it does.

It reads

Whether a Reels or
Shorts screen is open
When a new video
starts
Time spent there

It never reads

Messages or captions
Usernames or
passwords
What the video is about

Nothing on your screen is saved or sent. Counts stay on your phone; only daily totals reach your squad.
